RR Mergers completes the sale of Transco Railway Products Railcar Repair Facility

March 7, 2016 – RR Mergers & Acquisitions, specialist in the sale of rail service and supplier companies, announces the sale of Transco Railway Products’ Bucyrus, Ohio Railcar Repair facility to Bucyrus Railcar Repair, LLC, a wholly-owned subsidiary of T & C Rail Holdings, Inc. (TCRH).

Transco Railway Products Inc. (TRPI) is one of the nation’s leading independent providers of freight car repair, modification and rebuilding services to the rail transportation industry.

For more than 30 years, Transco Railway Products has provided railcar repair to the rail industry at its Bucyrus, Ohio facility. Located on the Norfolk Southern mainline with switching from the Chicago, Ft. Wayne & Eastern Railroad, the facility spans 33 acres with 165,000 square feet under roof, 28 repair spots and blast/paint capabilities.

TCRH is a rail-focused holding company, currently acquiring rail transportation and services companies across North America. The principals have decades of hands-on railroad experience. The Bucyrus facility is TCRH’s first railcar repair acquisition in North America.
